

# Landslide Hazard Map

Toyama City

## ⑥Fuchu area Asahi District

### Timing of evacuation actions to protect yourself

**Alert levels**  
(Evacuation information etc.)  
Evacuation information issued by the city and disasterprevention weather information issued by the national andprefectural governments are divided into five levels so thatresidents can understand the risk of disaster occurrence andtake appropriate evacuation actions.

Alert levels	1	2	3	4	5
Alert levels	Early warning information (Probability of warnings)	Heavy Rain Advisory Flood Advisory	Evacuation of the elderly, etc.	Evacuation order	Emergency Safety Measures
Evacuation information etc.	Meteorological information (Issued by the JMA)		Evacuation information (Issued by Toyama City)		
Evacuation actions		Evacuation is recommended	Voluntary evacuation	Evacuation is recommended	Evacuation is not recommended.
Timing		People who take time to evacuate*1	Others	Be sure to evacuate by Alert Level 4	Act to protect yourself! *2
Priority					
Evacuation shelters		Safe emergency evacuation shelters that have been set up etc.			To a safer place *3
	Low	Disaster Risks			High

\*1 People who take time to evacuate : Includes the elderly and people with disabilities, etc.

\*2 Evacuation is recommended: Timing with a low risks of disaster Evacuation is not recommended: There is a high possibility that a disaster has occurred , safe evacuation is impossible.

\*3 Move to a room as far away from the cliff as possible or to a nearby solid building.

### If you observe signs of landslide.

\*Let's consider how to evacuate to places other than thosedesignated by Toyama City, such as relatives or acquaintances'houses in safe places.

### List of Facilities

Facility Name	Address	Phone Number
