

# Landslide Hazard Map

## ⑨Yamada Area Seibu District

Toyama City

### Timing of evacuation actions to protect yourself

**Alert levels** (Evacuation information etc.)  
Evacuation information issued by the city and disaster prevention weather information issued by the national and prefectural governments are divided into five levels so that residents can understand the risk of disaster occurrence and take appropriate evacuation actions.

Alert levels	1	2	3	4	5
Evacuation information etc.	Early warning information (Probability of warnings)	Heavy Rain Advisory Flood Advisory	Evacuation of the elderly, etc.	Evacuation order	Emergency Safety Measures
Evacuation information etc.	Meteorological information (Issued by the JMA)		Evacuation information (Issued by Toyama City)		
Evacuation actions			Evacuation is recommended	Voluntary evacuation	Evacuation is recommended*2
Timing			People who take time to evacuate*1	Others	Be sure to evacuate by Alert Level 4
Priority			Evacuation is recommended	Evacuation is recommended	Evacuation is not recommended. Act to protect yourself!*2
Evacuation shelters		Make a note of the evacuation shelters	Safe emergency evacuation shelters that have been set up etc.		To a safer place*3
	Low		Disaster Risks		High

\*1 People who take time to evacuate: Includes the elderly and people with disabilities, etc.  
 \*2 Evacuation is recommended: Timing with a low risk of disaster. Evacuation is not recommended: There is a high possibility that a disaster has occurred, safe evacuation is impossible.  
 \*3 Move to a room as far away from the cliff as possible or to a nearby solid building.

### How to read this map

- Designated emergency shelters
- Emergency heliport
- Facilities for people requiring special care
- Emergency wireless system
- District border
- Main Roads (National Route-Prefectural Road etc.)
- Main Roads through hazardous areas (National Route-Prefectural Road etc.)
- Evacuation direction
- 1 km mesh

From Risk Map of the Toyama Prefecture Landslide Alert Information Support System. Mesh number (8 digits)

### Landslide Alert Area

- Landslip (collapse of land on steep slopes) Special Alert Area
- Mudslide Special Alert Area
- Landslide
- Estimated direction of sediment flow

### If you observe signs of landslide.

If you observe signs of landslide.

Evacuate outside Sediment Disaster Hazard Areas

Evacuate to a safe place such as a designated emergency shelters\*

Contact the Toyama City Hall and Civil engineering office

\*Let's consider how to evacuate to places other than those designated by Toyama City, such as relatives or acquaintances' houses in safe places.

### List of Facilities

Facility Name	Address	Phone Number
Seibu Area Assembly Hall (Shozu)	7 Yamada-Shozu	076-457-2838
Otagawa Elementary School	5959 Fuchumachi-Sotowano	076-469-2506
Otagawa Community Hall	6324-1 Fuchumachi-Sotowano	076-469-2498

Evacuation sites marked with are located within the Landslide Special Hazard Areas. Please note that they may not be opened as evacuation sites.

### Facilities for people requiring special care

Facility Name	Address	Phone Number
Group home YAMADA	88 Yamada-Numanomata	-

**Yamada-Akamedani**

Estimated distance to proceed in 5 minutes

Persons requiring special care	Others
0	0
100	100
200	200
300	300
400	400
500m	500m

\*Since the time is based on normal walking speed, it may change at night or road conditions.
