

Landslide Hazard Map

Toyama City

⑩ Toyama Area Yahata District

Timing of evacuation actions to protect yourself

Alert levels (Evacuation information etc.) Evacuation information issued by the city and disaster prevention weather information issued by the national and prefectural governments are divided into five levels so that residents can understand the risk of disaster occurrence and take appropriate evacuation actions.

Alert Levels	1	2	3	4	5
Evacuation information etc.	Early warning information (Probability of warnings)	Heavy Rain Advisory Flood Advisory	Evacuation of the elderly, etc.	Evacuation order	Emergency Safety Measures
Evacuation actions			Evacuation information (Issued by the JMA)	Evacuation information (Issued by Toyama City)	
Timing			People who take time to evacuate*1	Others	Be sure to evacuate by Alert Level 4
Priority			Evacuation is recommended	Voluntary evacuation	Evacuation is recommended*2
Evacuation shelters		Make a note of the evacuation shelters	Safe emergency evacuation shelters that have been set up etc.		To a safer place*3
	Low		Disaster Risks		High

*1 People who take time to evacuate: Includes the elderly and people with disabilities, etc.

*2 Evacuation is recommended: Timing with a low risk of disaster. Evacuation is not recommended: There is a high possibility that a disaster has occurred, safe evacuation is impossible.

*3 Move to a room as far away from the cliff as possible or to a nearby solid building.

If you observe signs of landslide.

*Let's consider how to evacuate to places other than those designated by Toyama City, such as relatives or acquaintances' houses in safe places.

List of Facilities

Facility Name	Address	Phone Number
Yahata Elementary School	670 Yahata	076-435-0144
Nagaoka Elementary School	9420 Nagaoka	076-432-2594

Facilities for people requiring special care

Facility Name	Address	Phone Number
FUN FARM Nozumino (Subordinate Office: FUN FARM Nozumino(Mirai))	4185 Hakkayama	-

How to read this map

- Designated emergency shelters
- Emergency heliport
- Facilities for people requiring special care
- Emergency wireless system
- District border
- Main Roads (National Route-Prefectural Road etc.)
- Main Roads through hazardous areas (National Route-Prefectural Road etc.)
- Evacuation direction
- 1 km mesh (From Risk Map of the Toyama Prefecture Landslide Alert Information Support System. Mesh number (8 digits))
- Landslide Alert Area (collapse of land on steep slopes) Special Alert Area
- Mudslide Special Alert Area
- Landslide
- Estimated direction of sediment flow

Estimated distance to proceed in 5 minutes

Persons requiring special care Others

*Since the time is based on normal walking speed, it may change at night or road conditions.

0 100 200 300 400 500m S=1:5,500
