

Landslide Hazard Map

12 Toyama Area Kureha District

Timing of evacuation actions to protect yourself

Alert levels (Evacuation information etc.) Evacuation information issued by the city and disaster prevention weather information issued by the national and prefectural governments are divided into five levels so that residents can understand the risk of disaster occurrence and take appropriate evacuation actions.

Alert levels	1	2	3	4	5
Evacuation information etc.	Early warning information (Probability of warnings)	Heavy Rain Advisory Flood Advisory	Evacuation of the elderly, etc.	Evacuation order	Emergency Safety Measures
Evacuation actions	Meteorological information (Issued by the JMA)		Evacuation information (Issued by Toyama City)		
Timing	People who take time to evacuate*1		Evacuation is recommended	Voluntary evacuation	Evacuation is recommended*2
Priority	Be sure to evacuate by Alert Level 4		Evacuation is not recommended. Act to protect yourself! *2		
Evacuation shelters	Make a note of the evacuation shelters		Safe emergency evacuation shelters that have been set up etc.		
	Low		High		

*1 People who take time to evacuate: Includes the elderly and people with disabilities, etc.

*2 Evacuation is recommended: Timing with a low risk of disaster. Evacuation is not recommended: There is a high possibility that a disaster has occurred, safe evacuation is impossible.

*3 Move to a room as far away from the cliff as possible or to a nearby solid building.

If you observe signs of landslide.

If you observe signs of landslide.

Evacuate outside Sediment Disaster Hazard Areas

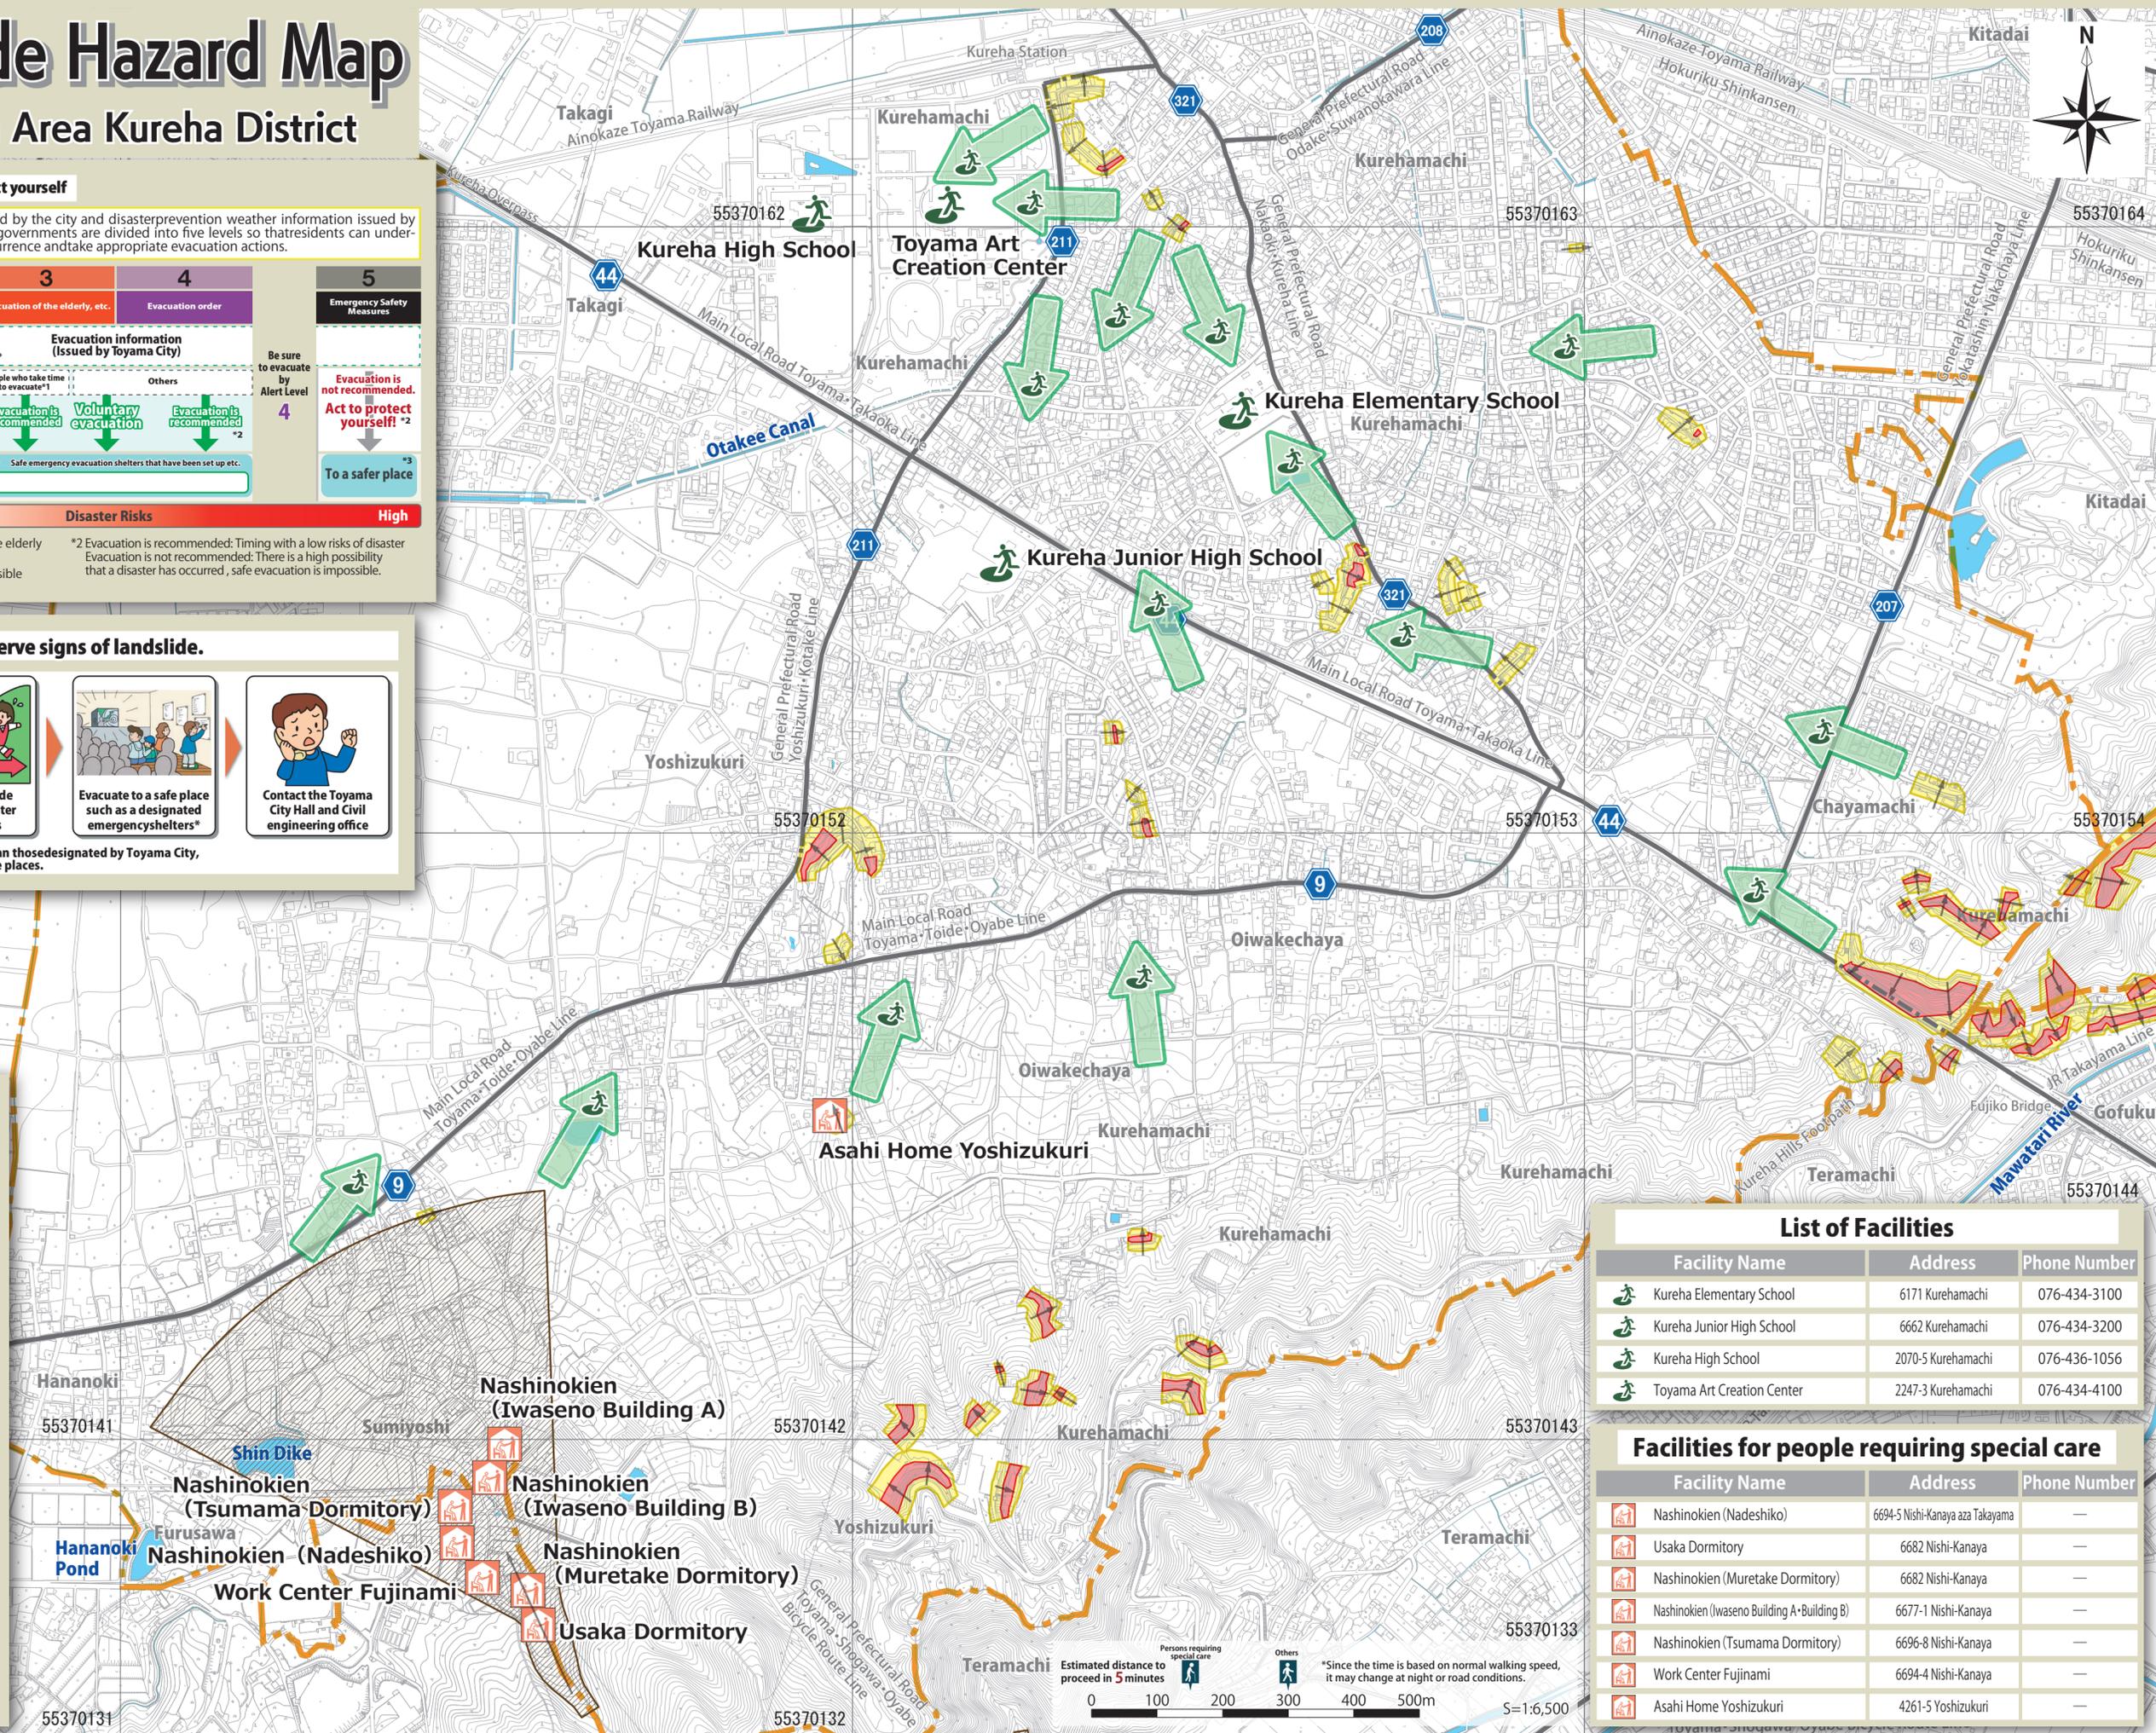

Evacuate to a safe place such as a designated emergency shelters*

Contact the Toyama City Hall and Civil engineering office

*Let's consider how to evacuate to places other than those designated by Toyama City, such as relatives or acquaintances' houses in safe places.

How to read this map

- Designated emergency shelters
- Emergency heliport
- Facilities for people requiring special care
- Emergency wireless system
- District border
- Main Roads (National Route-Prefectural Road etc.)
- Main Roads through hazardous areas (National Route-Prefectural Road etc.)
- Evacuation direction
- 1 km mesh (From Risk Map of the Toyama Prefecture Landslide Alert Information Support System. Mesh number(8 digits))
- Landslide Alert Area**
 - Landslip (collapse of land on steep slopes) Special Alert Area
 - Mudslide Special Alert Area
 - Landslide
 - Estimated direction of sediment flow

List of Facilities

Facility Name	Address	Phone Number
Kureha Elementary School	6171 Kurehamachi	076-434-3100
Kureha Junior High School	6662 Kurehamachi	076-434-3200
Kureha High School	2070-5 Kurehamachi	076-436-1056
Toyama Art Creation Center	2247-3 Kurehamachi	076-434-4100

Facilities for people requiring special care

Facility Name	Address	Phone Number
Nashinokien (Nadeshiko)	6694-5 Nishi-Kanaya aza Takayama	—
Usaka Dormitory	6682 Nishi-Kanaya	—
Nashinokien (Muretake Dormitory)	6682 Nishi-Kanaya	—
Nashinokien (Iwaseno Building A·Building B)	6677-1 Nishi-Kanaya	—
Nashinokien (Tsumama Dormitory)	6696-8 Nishi-Kanaya	—
Work Center Fujinami	6694-4 Nishi-Kanaya	—
Asahi Home Yoshizukuri	4261-5 Yoshizukuri	—

Persons requiring special care: Estimated distance to proceed in 5 minutes

Others: Estimated distance to proceed in 5 minutes

Scale: 0 100 200 300 400 500m S=1:6,500

*Since the time is based on normal walking speed, it may change at night or road conditions.
