Estimated distance to proceed in 5 minutes

S=1:2,500

How to read this map

- Designated emergency shelters
- Emergency heliport
- Facilities for people requiring special care
- Emergency wireless system
- District border
- Main Roads (National Route+Prefectural Road etc.)
- Main Roads through hazardous areas (National Route+Prefectural Road etc.)
- Evacuation direction
- 1 km mesh
From Risk Map of the Toyama Prefecture Landslide Alert Information Support System. Mesh number(8 digits)
- Landslide Alert Area**
- Landslip (collapse of land on steep slopes) Special Alert Area
- Mudslide Special Alert Area
- Landslide
- Estimated direction of sediment flow

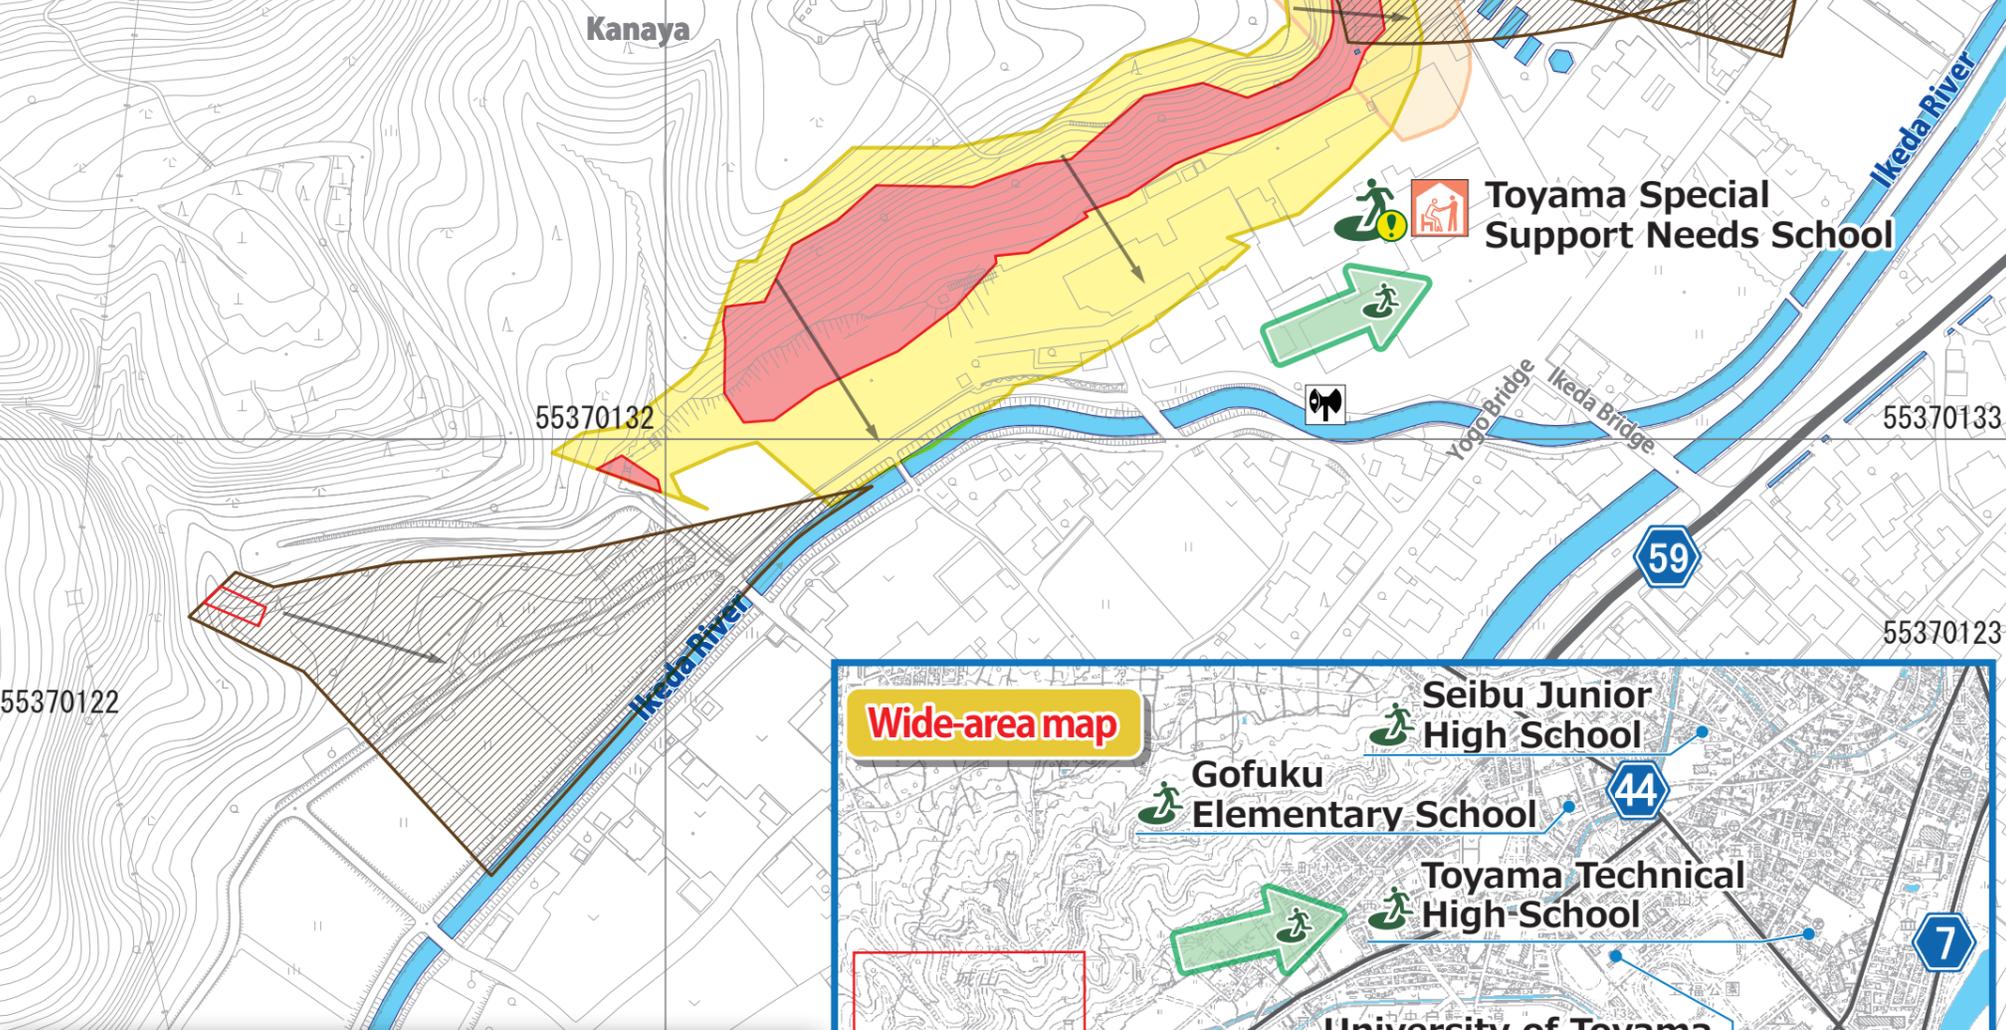

List of Facilities

Facility Name	Address	Phone Number
Toyama Special Support Needs School	4982 Kanaya	076-441-8261
Gofuku Elementary School	4431-2 Gofuku	076-432-4786
Seibu Junior High School	130 Gofuku	076-432-4787
Toyama Technical High School	2238 Gofuku	076-441-1971
University of Toyama Gofuku Campus	3190 Gofuku	076-445-6011

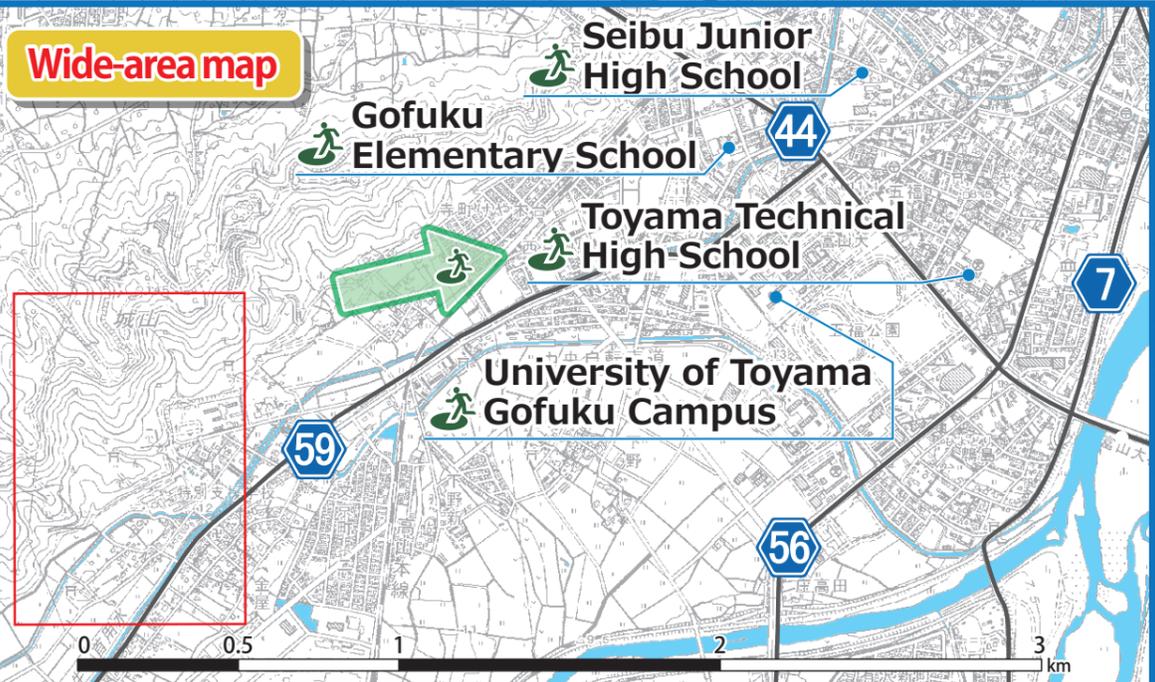

Evacuation sites marked with are located within the Landslide Special Hazard Areas. Please note that they may not be opened as evacuation sites.

Facilities for people requiring special care

Facility Name	Address	Phone Number
Toyama Special Support Needs School	4982 Kanaya	-

Wide-area map

If you observe signs of landslide.

- If you observe signs of landslide.
- Evacuate outside Sediment Disaster Hazard Areas
- Evacuate to a safe place such as a designated emergencyshelters*
- Contact the Toyama City Hall and Civil engineering office

*Let's consider how to evacuate to places other than those designated by Toyama City, such as relatives or acquaintances' houses in safe places.
