

Landslide Hazard Map

Toyama City 27 Oyama Area Fukusawa District 3

Timing of evacuation actions to protect yourself

Alert levels
(Evacuation information etc.)

Evacuation information issued by the city and disaster prevention weather information issued by the national and prefectural governments are divided into five levels so that residents can understand the risk of disaster occurrence and take appropriate evacuation actions.

Alert levels	1	2	3	4	5
Evacuation information etc.	Early warning information (Probability of warnings)	Heavy Rain Advisory Flood Advisory	Evacuation of the elderly, etc.	Evacuation order	Emergency Safety Measures
Evacuation actions	Meteorological information (Issued by the JMA)	Evacuation information (Issued by Toyama City)		Be sure to evacuate by Alert Level 4	Evacuation is not recommended. Act to protect yourself! *2
Timing Priority		Evacuation is recommended	Voluntary evacuation	Evacuation is recommended *2	To a safer place *3
Evacuation shelters	Make a note of the evacuation shelters	Safe emergency evacuation shelters that have been set up etc.			

Disaster Risks: Low (left) to High (right)

*1 People who take time to evacuate: Includes the elderly and people with disabilities, etc.
*2 Evacuation is recommended: Timing with a low risk of disaster. Evacuation is not recommended: There is a high possibility that a disaster has occurred, safe evacuation is impossible.
*3 Move to a room as far away from the cliff as possible or to a nearby solid building.

List of Facilities

Facility Name	Address	Phone Number
Fukusawa Elementary School	46-4 Higashi-Fukusawa	076-483-1857
Oyama Farm Village Environment Improvement Center	1818 Higashi-Fukusawa	076-483-3230
