

Landslide Hazard Map

Toyama City ③ Oyama Area Omi District 1

How to read this map

- Designated emergency shelters
- Emergency heliport
- Facilities for people requiring special care
- Emergency wireless system
- District border
- Main Roads (National Route・Prefectural Road etc.)
- Main Roads through hazardous areas (National Route・Prefectural Road etc.)
- Evacuation direction
- 1 km mesh
From Risk Map of the Toyama Prefecture Landslide Alert Information Support System. Mesh number(8 digits)
- Landslide Alert Area**
- Landslip (collapse of land on steep slopes) Special Alert Area
- Mudslide Special Alert Area
- Landslide
- Estimated direction of sediment flow

Timing of evacuation actions to protect yourself

Alert levels (Evacuation information etc.) Evacuation information issued by the city and disasterprevention weather information issued by the national and prefectural governments are divided into five levels so that residents can understand the risk of disaster occurrence and take appropriate evacuation actions.

Alert levels	1	2	3	4	5
Evacuation information etc.	Early warning information (Probability of warnings)	Heavy Rain Advisory Flood Advisory	Evacuation of the elderly, etc.	Evacuation order	Emergency Safety Measures
Evacuation actions	Meteorological information (Issued by the JMA)	Evacuation information (Issued by Toyama City)			Be sure to evacuate by Alert Level 4
Timing		Evacuation is recommended	Voluntary evacuation	Evacuation is recommended	Evacuation is not recommended.
Priority		↓	↓	↓	Act to protect yourself! *2
Evacuation shelters	Make a note of the evacuation shelters	Safe emergency evacuation shelters that have been set up etc.			To a safer place *3
	Low	Disaster Risks			High

*1 People who take time to evacuate : Includes the elderly and people with disabilities, etc.
*2 Evacuation is recommended: Timing with a low risks of disaster. Evacuation is not recommended: There is a high possibility that a disaster has occurred, safe evacuation is impossible.
*3 Move to a room as far away from the cliff as possible or to a nearby solid building.

If you observe signs of landslide.

If you observe signs of landslide.

Evacuate outside Sediment Disaster Hazard Areas

Evacuate to a safe place such as a designated emergency shelters*

Contact the Toyama City Hall and Civil engineering office

*Let's consider how to evacuate to places other than those designated by Toyama City, such as relatives or acquaintances' houses in safe places.

List of Facilities

Facility Name	Address	Phone Number
Omi Elementary School	250 Omi	076-482-1036
