

# Landslide Hazard Map

Toyama City ④0 Yatsuo Area Yatsuo District 3

### Timing of evacuation actions to protect yourself

Evacuation information issued by the city and disaster prevention weather information issued by the national and prefectural governments are divided into five levels so that residents can understand the risk of disaster occurrence and take appropriate evacuation actions.

Alert levels	1	2	3	4	5
Alert levels	Early warning information (Probability of warnings)	Heavy Rain Advisory Flood Advisory	Evacuation of the elderly, etc.	Evacuation order	Emergency Safety Measures
Evacuation information etc.	Meteorological information (Issued by the JMA)		Evacuation information (Issued by Toyama City)		
Evacuation actions			People who take time to evacuate*1	Others	Be sure to evacuate by Alert Level 4
Timing			Evacuation is recommended	Voluntary evacuation	Evacuation is recommended*2
Priority					Evacuation is not recommended. Act to protect yourself!*2
Evacuation shelters		Make a note of the evacuation shelters	Safe emergency evacuation shelters that have been set up etc.		To a safer place*3
	Low		Disaster Risks		High

\*1 People who take time to evacuate: Includes the elderly and people with disabilities, etc.  
 \*2 Evacuation is recommended: Timing with a low risk of disaster. Evacuation is not recommended: There is a high possibility that a disaster has occurred, safe evacuation is impossible.  
 \*3 Move to a room as far away from the cliff as possible or to a nearby solid building.

### If you observe signs of landslide.

- If you observe signs of landslide.
- Evacuate outside Sediment Disaster Hazard Areas
- Evacuate to a safe place such as a designated emergency shelters\*
- Contact the Toyama City Hall and Civil engineering office

\*Let's consider how to evacuate to places other than those designated by Toyama City, such as relatives or acquaintances' houses in safe places.

Estimated distance to proceed in 5 minutes

Persons requiring special care: 0, 100, 200, 300, 400, 500m

Others: 0, 100, 200, 300, 400, 500m

\*Since the time is based on normal walking speed, it may change at night or road conditions.

S=1:8,500

### How to read this map

- Designated emergency shelters
- Emergency heliport
- Facilities for people requiring special care
- Emergency wireless system
- District border
- Main Roads (National Route-Prefectural Road etc.)
- Main Roads through hazardous areas (National Route-Prefectural Road etc.)
- Evacuation direction
- 1 km mesh

### Landslide Alert Area

- Landslip (collapse of land on steep slopes) Special Alert Area
- Mudslide Special Alert Area
- Landslide
- Estimated direction of sediment flow

### Wide-area map

Yatsuo Elementary School

### List of Facilities

Facility Name	Address	Phone Number
Muromaki Community Hall	242 Yatsuomachi-Naka	076-455-1069
Yatsuo Elementary School	5320 Yatsuomachi-Shimosasahara	076-454-3105

Evacuation sites marked with are located within the Landslide Special Hazard Areas. Please note that they may not be opened as evacuation sites.
