Evacuation sites marked with are located within the Landslide Special Hazard Areas. Please note that they may not be opened as evacuation sites.

If you observe signs of landslide.

*Let's consider how to evacuate to places other than those designated by Toyama City, such as relatives or acquaintances' houses in safe places.

Timing of evacuation actions to protect yourself

Alert levels (Evacuation information etc.) Evacuation information issued by the city and disaster prevention weather information issued by the national and prefectural governments are divided into five levels so that residents can understand the risk of disaster occurrence and take appropriate evacuation actions.

Alert levels	1	2	3	4	5
Evacuation information etc.	Early warning information (Probability of warnings)	Heavy Rain Advisory Flood Advisory	Evacuation of the elderly, etc.	Evacuation order	Emergency Safety Measures
Evacuation information etc.	Meteorological information (Issued by the JMA)		Evacuation information (Issued by Toyama City)		
Evacuation actions			People who take time to evacuate*1	Others	Be sure to evacuate by Alert Level 4
Timing			Evacuation is recommended	Voluntary evacuation	Evacuation is recommended*2
Priority			Evacuation is recommended	Evacuation is recommended	Evacuation is not recommended. Act to protect yourself! *2
Evacuation shelters	Make a note of the evacuation shelters		Safe emergency evacuation shelters that have been set up etc.		
	Low		Disaster Risks		High

*1 People who take time to evacuate: Includes the elderly and people with disabilities, etc.
*2 Evacuation is recommended: Timing with a low risks of disaster. Evacuation is not recommended: There is a high possibility that a disaster has occurred, safe evacuation is impossible.
*3 Move to a room as far away from the cliff as possible or to a nearby solid building.
